Unquestionably the largest-flowered white Gladiolus ever introduced. It is so far ahead of all the others in size, form and purity of color that it introduces a new class of Giant-flowed White Gladioli.

The illustration at left shows a typical spike, with seven full flowers in perfect condition, all looking "Straight at you." The lower flower of this particular spike measured  $5\frac{1}{2}$  inches across, grown without any special treatment or artificial irrigation.
